CPU60 Holder (In White) – Product Render

CMS Electracom

Revisions

No changes.

# CPU60 Holder (In White) – Environment Render (no tower)

Revisions

1. Remove all shadows and reflections

2. Put in screw all the way – please see below for reference

3. Connect the line as per below image for reference

CPU60 Holder (In White) – Environment Render (with tower)

Revisions

1. Same changes as page 2.

2. For PC tower, where there are diagonally lines – can you please update it so that bottom half has diagonal lines and top half just has solid black.

Make black solid

Keep like this
